IT-158BS/IT-158TC

Multifunctional Filled Epoxy Resin and Phenolic-Cured Lead Free Laminate & Prepreg

IT-158 is a medium Tg (>150 °C by DSC) multifunctional filled epoxy with high thermal reliability and CAF resistance. It's suitable for industrial PCB, automobile and can pass 260 °C Lead free assembly.

Key Features =====

Advanced Resin Technology

Industrial standard material with medium Tg (150 °C by DSC) multifunctional filled epoxy resin and excellent thermal reliability.

Lead-Free Assembly Compatible

RoHS compliant and suitable for high thermal reliability needs, and Lead free assemblies with a maximum reflow temperature of 260 °C.

Friendly Processing and CAF Resistance

Friendly to PCB process that users can easily handle the process by current equipment and chemical.

CAF Resistance

Excellent thermal reliability and CAF resistance providing long-term reliability for industrial boards and automobile application.

Available in Variety of Constructions

Available in a various of constructions, copper weights and glass styles, including standard(HTE), RTF and VLP copper foil.

Applications

PC and Notebook

Memory Module

Game Player

Multilayer PCB

Automobile

Servers and Networking

Telecommunications

Heavy Copper Application

Industrial Approval

UL 94 V-0

IPC-4101C Spec / 99

RoHS Compliant

ITEQ Laminate/ Prepreg : IT-158TC / IT-158BS

IPC-4101C Spec /99

LAMINATE (IT-158TC)

Property	Thickness < 0.50 mm [0.0197 in]		Thickness ≥ 0.50 mm [0.0197 in]		Units	Test Method

The above data and fabrication guide provide designers and PCB shop for their reference. We believe that these information are accurate, however, the data may vary depend on the test methods and specification used. The actual sales of the product should be according to specification in the agreement between ITEQ and its customer. ITEQ reserves the right to revise its data at any time without notice and maintain the best information available to users.
