 flame retardant copper clad laminate**

CEM-3-92 /UV BLOCK CEM-3-92

■ FEATURES

- Natural color CEM-3-92 is more transparent; especially the color is similar to FR-4 material.
- Same quality, same P. C. B. Process capability as CEM-3-86.
- Wearing of drill bit is much less than that of FR-4; especially suitable for punch process.
- Electrical properties as well as chemical resistance are the same as those of FR-4.
- Through-hole reliability and warpage have been improved to replace some part of the market share of FR-4.
- IPC-4101C Specification is applicable.
